- aap yahan keval aaye hi nahi hain par laaye hain apni sanskriti
- India ki umar aaj 65 saal hai, 15 Aug. 1947 se pehle India kahan tha (nahi tha), wo British India tha, uss samay bharat bhi nahi tha ---- **6000 rajwado ka bharat?**
- uss wakt ka aadivaasi na bharat me tha naa india me tha, wo kahan tha --- sindhu khati me tha -- is desh ko india ke naam se nahi jana jata tha --- Bharat aur India naam pehli baar 15 Aug. 1947 ke baad diya gaya --- India ke constitution me kya likha hai shuruat me agar hum 'prembal chod den jisme we the people of india likha hai' --- article 1 ka pehla sentence kya hai, likha hai, 'India, that is Bharat shall be a union of states ' -- So india is a union of states on federal basis but it is not a federation
- Ek desh ka varnan karne ke liye 2 shabd ka use kiya gaya - India aur Bharat --- Q -- Kya iski zarurat thi --- India, that is Bharat zarurat tha isiliye likha gaya tha ---- India means - that times British India, jo manchitr british india ka hai wo manchitr Bharat ka nahi hai --- Bharat bahut bada tha --- par British administered India bahut chota tha --- British aaye they imperialism ko badawa dene naaki bharat ya india banane --- 6000 rajwado ko shamil karke india bana aazadi ke baad
